## **Fire Safety**

1. All performers are fully permitted and insured. All performers carry \$3 million liability insurance through Specialty Insurance Agency of New Richmond, Wisconsin.
2. Safety is our number one priority. All performers shall be trained in basic first aid. There is always an emergency medical/burn kit at each performance.
3. There is always a fire safety specialist available for each performance, more as required. All performers and safeties have been trained in all aspects of creating a safe performance space and what actions to take in the event of unplanned fire.
4. Fire equipment is checked for any damage before every use. Fire tools are professionally made with special attention to durability and secure wick attachments. Our equipment is always available for inspection by the venue and all performers are available to demonstrate the use of the tools in the performance prior to the start of the show.
5. The fueling station is attended to by a fire safety. A performer assistant whose sole purpose is to maintain our high safety standards.
6. Fuel is stored in a well-marked, fire-rated container. When the fuel station is not in use, all fuel containers shall be closed. Lighting of all fire tools is a minimum of 15 feet from the fuel station.
7. Our fuel choice will always comply with city, county, and state jurisdiction.
8. There is an ABC fire extinguisher(s) present and ready to be used at all times.
9. There are several water soaked towels next to the performance space, duvetyne fire towels, and a specialized burn kit on site.
10. The audience is kept at a minimum of 9 feet all directions from the flame.
11. When performing indoors, there shall always be clearly marked exit signs with 2 exit areas.
12. Ceiling height should be a minimum of 10 feet. There shall be an adequate ventilation system to clear any residual smoke from the performance tool from the performance and spectators area.

**Detroit Circus continues to practice the highest safety standards in the industry, and has maintained a 100% accident and injury free performance record.**
